

Yellow Class

Week beginning 4th November 2019

Maths

This week we will continue to practise column subtraction exchanging in the tens and hundreds columns, moving onto

problem solving by end of the week.

	2	4	¹ 5
-		2	8
	2	2	7

English We are carrying on with our Power of Reading book "Gregory Cool" and this week we will be writing instructions as to how to build the type of house that Gregory's grandparents live in. We will also be writing bonfire poetry.

Geography Topic - This week we will be learning about volcanoes and making our volcano models.. Please could children bring in a small plastic bottle (about 500 ml). We would also be grateful for any newspapers you could collect.

Science In science this week we will be learning about the effects of water resistance.

Home Learning

This term, children are asked to choose 1 or 2 words to add to their spelling list. These are words that they regularly find difficult to spell. All children who read 3 times a week will be celebrated on the "Reading Stars" board. Children will be aware of which times tables they are now practising. This term, children are also invited to find out about something related to our topic and either write about it, create a model or draw and label a picture. Please could these be returned by the 9th December. Children that complete this task will earn 2 house points.
